

# "STRONG ARM" CABINET PRESIDENT'S DEMAND.

(BY DIRECT WIRE TO THE TIMES.)

WASHINGTON, Aug. 23.—[Exclusive Dispatch.] During the alterations being made at the White House today a carpenter picked up a book of shorthand notes that had been thrown away. They contained an account of the Cabinet meeting held before the President went to Oyster Bay.

There was much that had to do with secret affairs of the government, such as sending the fleet to Japan and other matters of great diplomatic importance, but passed over as being government secrets by the stenographer who translated the shorthand notes, and the question of how Mr. Root came to go to Muldoo's was picked out and transcribed.

Mr. Roosevelt asked Mr. Root how he felt, and here is the stenographic report:

"Mr. Root: I am feeling about the same, Mr. President.

"The President: That is it; you are feeling the same. At your time of life you should be growing stronger. Look at me. I am growing stronger every day.

"Mr. Root: Do you read all the editorials?

"The President: Mr. Root, you are frivolous. When I say stronger, I do not mean with the people. I am too strong. My critics even admit that—I mean physically. This morning I put the hundred-pound man up four times. I was throwing it about the room when one of the servants came in. I found the fellow could not lift it, and have discharged him. You, Mr. Root, should take more exercise. You should ride more, box some, wrestle some, and in fact, put in all the time you have at it. Root, this is a strong-arm administration; this is not an administration of weaklings and half-baked athletes. You must improve. You must study your bi-caps. It is yet time. The affairs of state can wait, or they can be turned over to me. You are ending in Mexico. I want Diaz to see you, and I want him to see you at your best. I would send Taft, but the sleeping-car berths in Mexico are too small and the roads being narrow gauge, make it impossible to send one of our own sleepers through. I want you to go, and I want you to be at. We want you to go to Mexico and meet Diaz.

"If he says anything, don't quibble about the size of the purse offered or the number of rounds. If he doesn't say anything you say something. Tell him you want to show him to box. Be sure the Japanese Minister is present when you do. Take him out and put on the gloves with him. Put a horseshoe in yours. If he doesn't land him good, that's the way.

"Diaz is going to be President a long time and I hope one of you gentlemen will succeed me. (Mr. Taft and Mr. Root at this point both sipped ice water.) In fact as you know I have arranged it for one of you to succeed me. We will now take a vote on Mr. Root's going to Muldoo's. I will cast the deciding vote. If he is decided by the Cabinet that you must go to Muldoo's and take a course of treatment that will put you up to the general reputation of the Cabinet for strenuousness."

SUGGON FOR SUFFERING.

## AID RENDERED IN TRAIN WRECK.

AMERICANS DO GOOD WORK IN FRENCH DISASTER.

Express Train from Bordeaux to Paris Collides With Freight, Killing Ten Persons and Injuring Twenty-one Others—Member of De Rothschild Family Sees Lives.

Young Dempsey.

forty miles, and has some of the cleverest of the San Francisco scamps at his belt. He is fast in the ring, and his engagement between him and Lauder is considered about an even break by the fans.

Husky little Harry Rose went into the ring, yesterday, at 4 o'clock, and wasted a lot of his terrific punches on the air, in shadow fighting. He is in great shape and promises to give his battle with Jake Arnold will be a different story from the last, when he secured a draw after leaving the better of it in the early rounds. He looks like a second Kid Dalton.

Roy Page, the newboy champion, who went down before the Turk in the last try-out, is kept busy these days milking with the youngsters at the pavilion. He takes them on by turns, but devotes his real ability to defeating Young Dempsey's swift blows.

Scotty Johnson does his work at night, while his coming opponent, Eddy Menney, is taking in the sea air at Santa Monica and training his blows.

Of the little fellows, Jimmy Austin, the Turk, and his rival, Martin Leahy, are working side by side, preparing for what promises to be a close opening bout. Both lads are doing well, and have begun to ease up on ice cream cornucopias, which all the embryo fighters put away in large quantities.

Blugger McGovern is looking like a winner, and in his present condition should stop Guy Martin, of Pasadena, before the six rounds are up.

Tomorrow all the boys will knock off hard work, and do little except wait to keep in shape for the mills Tuesday night. Today will be the last boxing workouts, and a large crowd is expected at the pavilion to see the sport.

WESTERN CHAMPIONS.

## PARSONS TO RUN IN RACE TODAY.

TO MEET PETE GERHARDT OF THE OLYMPIC PARK.

Exhibition Contest at Tanforan During Automobile Show Which is Calculated to Raise Funds to Send Track Team Back East—Southern Man is Unwell.

Southern California's sole representative on the State track team, Charlie Parsons went to San Francisco, yesterday, and will go East with the team tomorrow morning, leaving the Oakland mole at 10 o'clock. Parsons and Pete Gerhardt, the Olympic Club hundred man, are to meet this afternoon at Tanforan Park. In an exhibition race before the visitors at the automobile meet. The other members of the team also are to meet in the last competition before they run in the Jamestown events.

Parsons said yesterday that he would make every effort to capture the hundred from Kelly, the Oregon sprinter, at Jamestown.

"I do not feel as strong as I have before other meets, but I ought to improve in condition in the time that remains," said the Los Angeles runner. "I have been training regularly since Walter Christie was here several weeks ago, and will make the best try I can for the first. If I am beaten, it will be

accept defeat until every known strike weapon against the Western Union and Postal have been brought into play.

"The sentiment among the rank and file to tie up every interest in the country against the strike, was of the two companies is growing so rapidly that we may be compelled to give heed."

## SMALL IN NEW YORK BECOMES OPTIMISTIC.

NEW YORK, Aug. 23.—[Exclusive Dispatch.] S. J. Small, president of the Commercial Union of Telegraphers, arrived in New York this morning from the West. He was met at the railway station by a large delegation of the striking operators and was escorted to a hall, where a meeting of telegraph messenger boys and check clerks was being held for the purpose of organizing a union. Mr. Small addressed the meeting briefly.

In the afternoon Mr. Small attended a meeting of the striking telegraphers, where he made a brief address, in which he dealt with the general situation, refraining from discussing "ions." Tonight Mr. Small is expected to make a statement to the press.

To pay telegraphic statement to the Jamestown team's loss in the trainer, Walter Christie, an automobile show is in progress at Tanforan Park under the auspices of the Olympic Club. What the financial result of this enterprise will be cannot now be known, but so certain are the members of the Olympic Club of its success that several of the members have advanced the money needed by the athletes, with the expectation that the receipts of the Tanforan show will repay them.

The team selected to represent California in the A.A.U. games at Jamestown on September 6 and 7, is sure to make a very creditable showing, although some of the men counted on will be unable to start tomorrow. Fred Lanagan, pole vault, 12 ft. 4 in. William Gilmore, shot put, 4 ft. 11 in. Pete Gerhardt, 100-yard dash, 0:10 1-5 and 220-yard dash, 0:22 4-5. Gregory Padilla, Jr., 88 yards, 2:04. Dan Kelly, the Oregon runner, will be Parsons' greatest rival at Jamestown, recently made the 100-yard dash in exactly the same time, 9:4-5, at Eugene, Or. in two trials less than a minute apart. He was timed by six watches. He ran alone and unopposed, and made the trials to satisfy the people of Eugene that he was capable of the time claimed for him. It was with the understanding that he would do this that the town of Eugene put up \$500 for the expenses of Kelly and his trainer to Jamestown.

## SPORTING BRIEFS.

San Francisco's new Rugby organization, called the Barbarians, has scheduled four games with the University of California. The first will be played on September 7, with the freshmen, and is the initial game of the season. On September 14, 21 and 28, the Barbarians will meet the California varsity. The membership of the Barbarian club is now thirty-three, from whom the fifteen will be selected. All the members are experienced players from Australia, South Africa, and New Zealand.

Billy Shalham of San Francisco and Kid Tex of Pueblo are to fight Wednesday night, in a twenty-round contest before the Bay City Athletic Club of San Diego. George Blake of Los Angeles is to be the referee.

A younger brother of Abdul, the Turk, who appears to be a fighter, practices for "wind every day by 'water-me-lan, nice water-me-lan,' every morning from a huckster's wagon on South Hope street. Some of the would-be fighters might find a worthy example in the Turk.

Yachtmen Entertained.

BERLIN, Aug. 24.—The American yachtmen who competed in the Emperor's cup races, arrived today and proceeded to Potsdam, where they were presented to Crown Prince Frederick William. The Americans were invited to dine with the Emperor at Hanover, August 27, following the review of the Fifth Army Corps. The Wamsee Yacht Club gave a dinner tonight, in honor of the visitors.

Cocoran Opening.

Tonight at Cocoran, San Francisco, will be put on sale early in September. Watch papers on sale. Million-dollar best sugar plant now being built there. Society Land and Cattle, owners, 25 South Spring street.

## LARGEST BALLOON LAUNCHED.

Maiden Ascent of Ben Franklin, Greatest in America, Starts at Philadelphia.

PHILADELPHIA, Aug. 23.—[Exclusive Dispatch.] Nearly a thousand persons saw the Ben Franklin, the largest balloon in the United States, start on its first trip at forty minutes after 2 o'clock yesterday afternoon.

In the basket were Prof. S. A. King, maker of the balloon, who is credited with more balloon ascensions than any other man in this country; Dr. F. Chalmers Fulton, president of the Ben Franklin Society; J. Edwin Reed, N. Jennings, president of the Ben Franklin Society; Arthur Atherton, George Weymouth and William N. Jennings, members of the society.

The balloon, after rising to a height of about 1000 feet, started away in the direction of Atlantic City. It was expected if the wind held true that the flight would be brought to an end on the Jersey coast, not far from Atlantic City.

The Ben Franklin is the product of a Philadelphia workshop and a Philadelphia workman. It will support about 2000 pounds. Twelve passengers could be brought to an end on the initial cruise.

"O, YOUNG LOCHIN VAR."

## BRAVE YOUTH ABDUCTS BRIDE.

CARRIES HER AWAY ON BACK OF FLEET HORSE.

South Dakota Man Returns from Montana on Day Set for Wedding of Sweetheart to Rival and Seduces Her—Preacher Found Before Pursuers Overtake Them.

HAYES (R. D.), Aug. 23.—[Exclusive Dispatch.] Rupert Craig, a young man who has been working in the mines about Anaconda, Mont., for several years, returned to his former home near here several days ago, and a few minutes before the time set for the marriage of Miss Edith Bonner to James Richmond Craig carried her off on the back of a fleet horse and afterward made her his bride.

Richmond and a dozen of his friends swung themselves upon horses and set out in pursuit of the abductor, but they were compelled to give up the chase.

Craig and Miss Bonner had long been sweethearts when the young man left his South Dakota home several years ago for Montana. In his absence Richmond, a well-to-do rancher, paid court to the girl and her parents insisted that she marry him. Craig heard by chance of the approaching wedding, and just in time to return to his old home, carry the girl off by force and win her.

Miss Bonner had consented to marry Richmond only because of her father's refusal to let her marry a man she did not love. Craig, telling him of the consent, had been entered into the marriage, but he had not believed that Craig had done so.

## NOT HURT.

# PITH OF NEWS FROM THE MIDDLE WEST.

(BY DIRECT WIRE TO THE TIMES.)

CHICAGO, Aug. 23.—[Exclusive Dispatch.] Weather conditions in Chicago today bordered on the ideal and the day was generally fair, one throughout the country, no storms or abnormal temperatures being reported. The fifteen-mile wind from the west held the humidity to normal figures and the temperature was 6 deg. lower than normal, with the maximum at 72 deg. and minimum 49 deg. Middle West temperatures at 7 p. m.: Alpena 53, Bismarck 76, Cairo 76, Cheyenne 66, Cincinnati 74, Davenport 72, Denver 62, Des Moines 72, Detroit 68, Dodge City 84, Dubuque 76, Duluth 62, Escanaba 62, Grand Rapids 64, Green Bay 70, Havana 80, Huron 76, Indianapolis 72, Kansas City 76, Marquette 58, Memphis 80, Milwaukee 62, North Platte 74, Omaha 78, St. Louis 76, St. Paul 70, Saint Marie 52, Springfield, Ill. 72, Wichita 84.

POSTAL CLERKS' DEMAND.

CHICAGO, Aug. 23.—[Exclusive Dispatch.] A demand on the postoffice authorities for the eight-hour day will be the principal topic at the forthcoming annual convention of the National Federation of Postoffice Clerks. The convention will be held in Indianapolis, September 2, 3 and 4. Fifteen delegates will be represented. Delegates have been instructed to formulate specifications that will be presented to the postoffice authorities at Washington demanding longer vacation periods annually, an eight-hour day, and a more equitable classification in the service. It is not intended to ask for a direct advance in wages, but to create conditions that will give certain classes larger compensation for services rendered.

TO CONVEY PRESIDENT.

ST. LOUIS, Aug. 23.—[Exclusive Dispatch.] Staunch and reliable mariners will have charge of the United States steamer Mississippi, which will carry President Roosevelt on his trip down the Mississippi River with the great fleet of steamboats from this city to Memphis, in October. Capt. Stephen E. Greenwell, who has had charge of the steamer Mississippi since she came out, will be in command, and Capt. Edward Fulkerson and Augustus S. Shinkle will be the pilots. Capt. Greenwell has been a lucky navigator, never having had an accident on the river. Capt. Fulkerson is a veteran steamboat man, having been a pilot on the St. Louis and New Orleans Anchor Line while that line was the largest on the Mississippi.

## FEAR OF RIOTS.

## CHICAGO IS ON STRIKE VERGE.

PACKING-HOUSE TEAMSTERS DEMAND MORE PAY.

They Give Proprietors Until Tomorrow Evening to Come to Terms or Face Walk-Out, Which is Considered to Mean Recurrence of Disorder and Lawlessness.

(BY DIRECT WIRE TO THE TIMES.)

CHICAGO, Aug. 23.—[Exclusive Dispatch.] Chicago is on the verge of another packing-house teamsters' strike, with the customary attendant rioting and disorder.

When the question of wages came up a week or more ago, a committee on arbitration was appointed, and the matter was considered settled. The committee, however, has been unable to agree, and at tonight's meeting the offer of packers to increase the pay of the men 1 per cent. was rejected. They demand 1 1/2 per cent. increase all around, and other concessions, and they have given the packers until Tuesday evening to come to terms or face a strike, which they threaten will become general.

Chicago dreads any strike in which the teamsters engage, as it is always marked by such disorder and lawlessness. The present city administration, however, has shown that it will maintain order, and to him, it is believed, the teamsters lost, overdraw his account.

## COMING CRUISE HAS PROBLEMS.

These Must Be Solved by Admiral Evans.

Fleet Administration Will Be Put to Severe Test.

To Coal and Supply Armada Not an Easy Task.

BY DIRECT WIRE TO THE TIMES.

WASHINGTON, Aug. 25.—[Exclusive Dispatch.] Announcement from Oyster Bay that the Atlantic fleet will start for the Pacific in December, and that the route would be via the Straits of Magellan to Puget Sound, was received with much interest in naval circles.

The service, which has been almost unanimously in favor of the movement to the Pacific, is glad the official announcement has been made, because it shows there will be no turning back. Regarding the route chosen, there is a division of opinion.

Many officers hold that the logical next station of the fleet is the Philippines, and the logical route that by means of Ruez. With much interest the announcement of the itinerary is now being studied.

Rooming to the Pacific Coast via the Straits of Magellan is a simple problem, and one ship or two ships, or even Mr. Ruez, but to take sixteen battleships, six cruisers, and a host of auxiliaries, is a much more serious task.

Success so large a force is a problem, much greater magnitude. The duty of the thing appeals to the department. The present fleet consists of sixteen battleships, six cruisers, and a host of auxiliaries, which will be sent to the Pacific, must go by way of the Panama Canal.

Express Train for the Pacific Coast. The Panama Canal is a much more serious task. The duty of the thing appeals to the department. The present fleet consists of sixteen battleships, six cruisers, and a host of auxiliaries, which will be sent to the Pacific, must go by way of the Panama Canal.

## Apollinaris

"The Queen of Table Waters"

TO HARNESS STREAM.  
WILL IRRIGATE  
IN NOVEL WAY.

FLATBOAT WITH PUMP WILL  
SOLVE WATER PROBLEM.

Manager of Mexican Banana Plantation, on Three Sides of Which River Flows, Comes to Los Angeles to Buy Outfit—Fruit Requires Hundred Inches of Liquid Annually.

W. W. Trigg, manager of a banana plantation on the Panuco River, twenty-five miles from Tampico, Mex., is in the city to buy machinery for a flatboat to be used for irrigating purposes.

The flatboat is to be fitted with pumps and towed alongshore to tract to be irrigated. The supply of water is the river. There will be no measurements in miles or inches or feet.

"Bananas require about 100 inches of water each year," said the manager yesterday. "The rainfall in our district does not average more than fifty inches a year. This necessitates an immense amount of irrigation."

"The problem has been to get the supply of water from the river on the land. By means of the flatboat and its pumps, the water can be carried to the plantations. The flatboat can be forced into the ditches and laterals every minute."

The company of which Trigg is president has been in the business for many years. It is owned principally by produce dealers and a number of local men are interested in the project.

"The question of transportation for bananas has always bothered the Mexicans," said Mr. Trigg. "In the early days the fruit was shipped from Tampico, but the bar at the mouth of the river prevented big steamers from reaching the port. Within the last six years the Mexican government has built jetties and improved the harbor."

At the present time steamers drawing under four hundred tons can reach our wharves under their own steam, load and turn around without the assistance of a tug."

"I think active Americans with a little capital can make a competence in our district raising bananas. By combining the small growers can raise enough to put an object in the market. The big dealers. Our company will be shipping about 200 bunches a week next season. The fruit goes to points all over the world."

West. St. Louis is a big shipping point. Los Angeles uses about twelve carloads a week. Only about one carload comes from the Hawaiian Islands. Most of the bananas used here come from Jamaica or Central America. Although the Mexican bananas are fully equal in favor to the best fruit from Jamaica."

"Hitherto the great difficulty in the case of men with small means was the impossibility of securing small plantations. Then, too, grafting schemes have been worked and these have discouraged many Americans from embarking in fruit enterprises."

"But the time is coming when some of the large plantations will be subdivided into small holdings. Trigg says there are millions of acres of good banana land awaiting the arrival of capital and labor. The demand for the fruit increases each year."

**FORTIETH ANNIVERSARY.**  
Friends Help Dr. A. G. L. Trew Celebrate Ending of Two Score Years in the Ministry.

The fortieth anniversary of the ordination of Rev. Dr. A. G. L. Trew, one of the most widely known Episcopal clergymen in Southern California, was the occasion of an impressive religious service and of a notable social reception at the home of Dr. Trew.

At 10:30 o'clock, Saturday forenoon, in All Saints' Episcopal Church at Highland Park, there was a celebration of the Holy Eucharist as an offering of thanks and prayer to God.

Bishop Johnson officiated, assisted by the Rev. W. H. Syer and the Rev. Dr. Trew.

Twenty-five of the clergy of the city and elsewhere were present, and at 12:30 o'clock, the number of the clergy having been increased by the arrival of several clergymen from other cities, more distant points, they were entertained at luncheon at the home of Dr. Trew. Members of the Woman's Guild of All Saints' Church were the hostesses.

During the afternoon, from 3 to 6 o'clock, Dr. Trew's residence and beautiful grounds were filled with throngs of friends from Highland Park and all over the city, and from many parts of Southern California.

Guests gathered to greet Dr. and Mrs. Trew during the afternoon.

Bishop and Mrs. Johnson received the guests who Dr. Trew, Dr. O. H. Bishop, George F. Bugbee, E. C. McCullough, G. Purcell, James Ford, Lucy Spencer, Clark, Knapp, Toney, H. M. Mosher, George F. Detrick, William McLendon, Evans Davis, D. M. True, C. Prendergast, I. M. Bond, J. M. Colby, Harry Knight, C. J. Fox, Jr., W. Winn, H. E. Downing, and the Misses Annie Allen, Elsa and Miriam Palmer, Ethel Fagge, Amy Howland, Kate Harris, Bessie and Charlotte Bugbee, Carolyn and Gertrude Knight, Marjorie Mosher, Dorothy Bond, Charlotte Sumner, Genevieve and Helen Madcock.

During the afternoon Bishop Johnson, standing in the midst of the throngs of friends, called for the attention of Dr. Trew, presented to him, in behalf of his brother clergymen of the diocese, the warmest expression of loving regard, and a purse of gold. Then, in behalf of Dr. Trew's friends from all over Southern California, from Mexico to San Luis Obispo county, Bishop Johnson handed to him an address and checks representing, with the gift, the sum of \$1,000, an aggregate of over \$1,200. The bishop added, as he handed the envelope to Dr. Trew, that the returns were not yet complete, and that some districts were still to be heard from.

Dr. Trew was deeply affected by this expression of esteem, and he could only respond in a few broken sentences.

After many years of work in the Episcopal churches of California, Dr. Trew will now retire from the active ministry, but he will continue to make his home in Highland Park, where his last and remarkably successful work in church and parish building has been accomplished. During his forty years as a clergyman, Dr. Trew has held many important positions in the church, and for a long period was archdeacon of this diocese.

## Last Week of the Great Removal Sale

Every day will see the stock grow smaller for such values as we are offering have never before been known in Los Angeles, nor are they likely to be offered again—not such quality at such prices.

## Keeley Cure

There is release for all from the liquor habit if they but take the Keeley Cure. An easy, quick, pleasant treatment. We shall be glad for you to call and investigate.

**AUTO PLUNGES INTO DITCH.**  
Mining Broker Going Home After Cafe Broken, Blinded by Headlight.

Blinded by the glare of an electric car's headlight, W. T. Smith, a mining broker, at No. 704 Johnson building, drove a steamer auto into a conduit sixteen feet deep, at Third street and Broadway last night. Witnesses say that Smith had a very narrow escape from serious injury.

"There was no light to warn me," said the broker. "Fortunately, there was no one in the car but myself. I was returning to my home from Levy's cafe, where I had dinner."

Witnesses verify Smith's statement as to the absence of a light at the hole. An officer said that several pedestrians had narrowly escaped falling into the ditch, which was opened by the Los Angeles Gas and Electric Company.

Inter-urban cars on Third street were blocked, and the north-bound Los Angeles Railway cars were stalled for fifteen minutes. The auto did not seem to be injured.

**GRIEF CAUSES DEATH.**  
Business Man Learns of Brother Passing Away and Soon Himself Answers Reaper's Call.

Grief over the death of his brother has caused the sudden death of John S. Clark, at his residence, No. 214 West Twenty-ninth street, yesterday afternoon.

For the past few years Clark has been connected with the California Home Extension Company. Prior to coming to Los Angeles, he traveled through the northern part of the State and was the promoter and organizer of the Rochdale Cooperative Stores.

Last week Clark received news from Bakersfield that his brother, W. T. Clark, had died suddenly, and that his sister-in-law was in the East. Clark took charge of the remains, and had them removed to Los Angeles. He then arranged for his brother's wife to come to this city.

Clark was 37 years old. He was born in Missouri, but came West when a youth.

## CAUTION

Be sure you're right. Brent's is not on the corner of Seventh and Main, as many people suppose, but a little further toward Eighth street.—Nos. 712-714-716-718 South Main street.

# MUSIC AND THE STAGE.

"The Halfbreed." Morosco-Cottrell's new play, even if of considerable improbability, is on in revival at the Burbank Theater, and judging by yesterday's enthusiastic attendance it will repeat its previous record of several weeks.

The only really new feature in this production is the impersonation of the character of the frontier sheriff, by the actor, who is taking the role. It is a part with the series of unusual characters which Morosco has been giving since his arrival in town, and the part is far from gracious, and the actor's hands are far less to popular favor than any of his previous impersonations.

Master comes again with the character bit in the whole of his life, but in this case, the character is the frontier sheriff. He is a part with the series of unusual characters which Morosco has been giving since his arrival in town, and the part is far from gracious, and the actor's hands are far less to popular favor than any of his previous impersonations.

This little has been done to make the character of the play, which of its verities has been obliterated, and many of the situations have been changed. It is to be commended for its reasonable setting to the second act, a far better equipment than the ridiculously impossible surroundings of the first.

"Convict 588." at the Grand this week is the very latest in New York productions. It was produced in the metropolis just three weeks ago. John Oliver, who wrote it, is at the head of the class in the construction of impossible thrillers. He has built a vehicle with plenty of motion, clouds of smoke and rivers of noble sentiment.

Adolf Black, a German janitor, does the hero act with his little camera. He has a strong scientific inclination. He dabbles in photography and "photography." He has a machine, and he takes a picture of Jennie, the girl who is running away with another fellow, and is so disheartened that he goes to the police to have the camera taken away from him. It is Jennie, in person, who takes the plate to the police to be developed.

It is Jennie, in person, who takes the plate to the police to be developed.

Adolf Black, a German janitor, does the hero act with his little camera. He has a strong scientific inclination. He dabbles in photography and "photography." He has a machine, and he takes a picture of Jennie, the girl who is running away with another fellow, and is so disheartened that he goes to the police to have the camera taken away from him. It is Jennie, in person, who takes the plate to the police to be developed.

In all the latest styles to match any shade. Hair dressing, hair oil, hair cream, hair shampoo, by expert attendants.

**Weaver-Jackson Hair Co.**  
44 South Broadway.

Hamburger Theater, and the building permit is out. The Panoram enterprise is moving from the customary Ramish & Marsh cloud of dust.

According to telegraphic advices, unusual scenes marked the Ferris fairwell in Minneapolis Saturday night. At the conclusion of the play Walter Hoff Sealey, local capitalist, told the Minneapolis folk of the theater he intends to build a big Ferris here, and friends presented to Mrs. Ferris a fine bit of Tiffany bronze. Before returning to Los Angeles Mr. and Mrs. Ferris will probably take a short trip to Porto Rico.

Mr. Hammerstein, not to be outdone by Mr. Corried, has secured Hans Richter, the most celebrated Wagnerian conductor now living, as a Teutonic piece-of-resistance to offset Mahler, in the Metropolitan camp.

For the first visit, Herr Richter will be in New York only for a short period. His coming at all, however, is deemed a remarkable concession, as repeated efforts on the part of the Metropolitan management have failed to induce him.

It is believed that Frau Wagner, angered at what she termed the plotting of "Prasfial" has secretly blocked all Corried's efforts to secure Richter. The performances Richter will conduct will in all probability be merely three operas, "Lohengrin," "Tannhauser" and "Tristan and Isolde." The "Ring" will not be given at the Manhattan Opera-house until 1908.

Opera in Milan does not pay, and when such is the case, in the center of lyric art, there is little hope for real financial profit from opera elsewhere in the world. The deficit during the past season amounted to \$700,000. It is declared, was the smallest loss known to the famous La Scala for some time.

George Arliss will again be a member of the Manhattan company this season, and in Mrs. Fiske's autumn tour through the South will have his old role of Raoul in "The Girl of the Year." He will also be seen as Alec in "Tess of the D'Urbervilles." He will have an important role in the new play by Langdon Mitchell, that the Manhattan company will present as a special organization next winter, while Mrs. Fiske is seen in another place in the East.

**Corcoran Opening.**  
Township of Corcoran, King county, will be put on sale early in September. Wash papers are said to be the best ever made now being built there. Security Land and Loan Co., owners, 27 South Spring St.

219-229  
S. Broadway

**Coulter Dry Goods Co.**

224-228  
S. Hill Street

Last week before semi-annual inventory. Low prices have given way to lower, but lowered prices never mean, at Coulter's, lowered quality. So you may pick up many a good bargain at far below its real worth during these last days of August.

## Dainty Neckruffs They're Half Price

Within two months from now you'll want to buy these self-same neck pieces and we shall have to charge full price for them, because they're going to be popular this fall and winter.

Ostrich Feather Boas \$5 to \$17.50  
Values \$10 to \$35 each.

Beautiful, selected feathers; in all white, or white with black, brown or gray.

Maline Neckruffs \$1.15 to \$10.50  
Values \$2.25 to \$21.00 each.

Made from tulle and maline, knife pleated; very dainty and highly stylish. Several colors, as well as black or white, to choose from.

## Stylish Waists 50c That's Less Than Half Worth

Plenty of warm weather ahead of us even yet; waists such as these will be worn throughout the entire winter and well into spring; and how their prices have tumbled!

Waists of All Sorts ..... 50c  
Values \$1.25 and even higher.

A few shirt waists of strictly tailored style are included; most of the garments concerned are, however, made to wear with soft stock collars; they're prettily tucked or pleated; made from excellent shirring materials, showing light halftone stripes, dots, checks; some solid black and gray or other colors; colored ginghams, etc.; sizes 34 to 44; values of the least expensive, \$1.25; on sale today for fifty cents apiece.

## Very Little Wash Goods Prices

In Effect Only on Monday

Last call for wash stuffs this season. And prices are so low that economically inclined women will buy as far ahead as next spring:

Organdies, Lawns, Swisses, and Batistes ..... 7 1/2c

Values 15c, 20c and 25c yard. White, black or colored dots; white grounds, printed in natural colored roses, etc.; anything in this section goes at the one price.

Irish Dimities ..... 15c

25c and 35c qualities. Hardly necessary to say much about our Irish dimities; they're known for their beauty all over this section, because we import them direct and get the cream of the best patterns.

## Sale of Real Ostermoor Mattresses

"Such stuff as dreams are made on," says one of the advertisements for these world-famous mattresses. And it would surely seem that dreams ought to be the pleasantest on a mattress of such downy softness, beautiful covering and sanitary construction.

Ostermoor Mattresses ..... \$11.70, \$15.00 and \$15.50  
Values \$14.70, \$18 and \$19.50 each.

Covered with beautiful mercerized French art twill ticking, in stripes and flowered designs—blue or pink; this makes an even softer mattress than the cotton finish. Mattresses are full size, except the \$14.70 one for \$11.70. This is 3-4 size, made in one piece. The \$15 mattress for \$15 is full size, in one piece; the \$15.50 one for \$15.50 is full size, made in two pieces.

Steamer rugs, automobile and carriage robes and fancy blankets are still on sale at reduced prices, for this week only.

## Reduced Black Goods

When poverty wool goods have held their little way and passed into oblivion, black stuffs are always good; always in perfect taste. So it's very seldom that little, if any, reduction is made from their established prices. Today shows an exception:

Black Wool Dress Stuffs ..... 95c

Values \$1.25 and \$1.50 a yard. Panamas, plain and fancy; granite crepes; cord de ley; French poplins; creppels; novelty check crispine and other established favorites.

## Save on Rugs and Draperies

If you're likely to need house furnishings, we'd like to figure with you. Today's list will prove suggestive of savings on good things:

Tapestry Brussels Rugs (9x12) ..... \$11.55  
Value \$15 each.  
Tapestry Brussels Rugs (12x10 1/2) ..... \$9.75  
Value \$14 each.  
Tapestry Brussels Rugs (6x9) ..... \$4.95  
Value \$9.00 each.  
Tapestry and Wilton Velvet Rugs (27x54 in.) ..... \$1.20  
Value \$2.00 each.  
Tapestry Carpet, with border ..... 60c yard  
Values 75c and 90c yard. Sewed, laid and liped. Five patterns for selection.  
Laisseus ..... 60c yard  
Values 80c and 75c.  
Couch Covers ..... 60c  
Value 85c. Stripe patterns.  
Couch Covers ..... 90c  
Value \$1.25. Full size; many patterns.  
Pillow Tops ..... 13 1/2c  
Values 25c to 50c; 50 dozen.  
Sample Curtain Ends ..... 15c  
Values up to \$1.00. 1 1/4 to 1 3/4 yards long.  
Madraps ..... 15c yard  
Values 25c and 30c; new patterns.

**Coulter's**

## Sale of Allover Embroideries

"Oh, how pretty!" is every woman's exclamation when she sees the really exquisite allover embroideries spread temptingly out over our counters. And when she learns that they're reduced a full half she is pretty sure to have a liberal supply sent home for making into evening or afternoon waists, frocks, fronts, yokes, etc.

Allover Embroideries ..... 75c to \$6.00

Values \$1.50 to \$12.00 a yard. Finest linen, Swiss and mullino allover, in French and baby Irish patterns, eyelet effects, medallions and tiny patterns; some double-width in the lot.

Chiffon Lace-Trimmed Flouncies ..... 75c to \$7.50

Values \$1.50 to \$12.00 a yard. Knife and accordion plaited chiffon flouncies, trimmed with lace; you put them into evening gowns, make chemises for jumper suits, etc., out of them; white and cream; widths from 7 to 18 inches.

## New Fall Suits Here

Every day sees new arrivals in tailored suits for fall. And each arrival brings new beauties. Green, brown and dark red seen favorite shades; cutaway and Prince Chap styles rule for the jackets, with pleated skirts.

New Fall Suits ..... \$25 and up

Walls, of course, the collection is not complete, selection may be made very satisfactorily, and in the less expensive styles we've a splendidly strong line. Hairline or wider stripes, even checks and invisible plaids are shown for the most part in these rich autumn shades.

## Fall Silks : Some Bargains

The new in silks is admirably displayed on our counters as they arrive each day. Word of some which will be foremost in favor:

Printed Silks ..... 50c to \$1.50  
Striped Silks ..... \$1 to \$1.75  
Lorraine, tulle and surah weaves ..... 85c to \$1.50  
Tulle, lorraine, pear de cygne, mullino weaves; brown, red and green.  
**Reduced Silks**  
Colored Tulle ..... 50c and 75c  
Values 75c and 85c yard. 19 inches wide; sterling quality; all colors.  
Black Silk Remnants ..... 85c to \$1 yard  
Values 85c to \$1.50 yard. Lengths 1 1/2 to 11 yards; strictly high-grade in every respect.  
White Habutail Silks ..... 85c and \$1  
Values \$1, \$1.25 and \$1.50 yard. 26 inches wide.  
Natural Pongees ..... 65c and \$1 yard  
Values 85c and \$1.25. 35 and 38 inches wide.  
Black Tulle Silk ..... \$1  
Value \$1.25. 26 inches wide.  
Black Colored Fancy Silk ..... 75c  
Value \$1. 21 inches wide.  
Moneyback and Home Silk Black Tulle ..... \$1.50 to \$2.00 yard  
Absolutely pure dye and pure silk; 21 to 26 inches wide.

## ATTENTION CITY'S GATES.

## HIGHLAND PARK.

MISS LELIA QUINBY, an Occidental College graduate of the class of 1905, has entered the missionary field. She has been assigned to the Presbyterian mission at Barro Colorado, Republic of Colombia, South America, where she will act as teacher in the girls' school.

After graduating from Occidental College Miss Quinby went to Chicago, where she completed a course at the Moody Bible Institute. With the view of preparing herself for work in the South American countries, she studied the Spanish language and speaks the tongue fluently. At the Moody Institute Miss Quinby became much interested in missionary work and joined the Students' Volunteer Band, offering her services unreservedly to the missionary board of the Presbyterian church.

Miss Quinby is well known at Highland Park where, during her college days, she was always actively interested in church work. She took a high place in the student life of the college and her former classmates feel that she is fully equipped to carry on a great work in her new field. She is highly spoken of by the officials of the Presbyterian church with whom she has been thrown in contact and it is believed that the Colombian mission will profit by her assignment.

The cost of sending Miss Quinby to her new field, about \$350, will be borne by the Highland Park Presbyterian Church, while the Central Presbyterian Church, of which she is now a member, will support her in the field.

At the Highland Park Presbyterian Church a farewell reception was given to Miss Quinby Tuesday afternoon at the close of the reception the entire

manently for some purpose or other. September 6 will see the return of Dr. Boyard, president of the University of Southern California. He plans to be on hand to assume the reins of government early enough to announce his plans before the commencement of next year's work.

Miss Harriet Kellier of No. 1102 West Twenty-ninth street entertained a number of her girl friends with a rare luncheon last Friday evening. The house was artistically decorated in ferns and red carnations. The feature of the evening's entertainment was "progressive flowers." The guests were Miss Ethel Hutton, Miss Margaret James, Miss Annette Burke, Miss Lauretta Young, Miss Cathryn St. Vrain, Miss Sadie Stanton, Miss Maud Burdage, Miss Clara Miotke, Miss May O'Rourke, Miss Harriet Hogan, Miss Margaret Martin, Miss Marie Bean and Miss Lucy Hauerwas.

The vacant lot improvement crusade being carried on vigorously and already a noticeable difference in the condition of unimproved property is evident. At Vermont and Santa Barbara avenues several ramshackle old shacks have been torn down and piles of disfiguring rubbish have been removed. On Santa Barbara avenue, west of Vermont, a cement sidewalk has just been finished.

## BOYLE HEIGHTS.

The new building of the Little Sisters of the Poor, which will house indigent old people, is practically completed. It is located on East First street just inside the city limits and is one of the finest structures of its kind.

The building is the donation of Edward J. Le Breton of San Francisco, who gave a similar structure to the same order in San Francisco. It cost a little more than \$300,000, and is built entirely of brick.

The sisters collect the broken

Miss Lelia Quinby, an Occidental graduate, who goes to Colombia as missionary teacher.

ering slowly. She stepped on a rust nail and for a time it was feared that the accident might have serious consequences.

Miss Eva Hunter of Anoka, Minn., who spent several weeks as the guest of her uncle, T. F. Pratt of No. 153 Normandie street, started for her home last Friday.

O. L. Robertson and family are again at home at No. 131 South Sichel street. They spent their summer vacation at Avalon.

Work on the new Polish Roman Catholic Church on the hillside near Jolly street is now well under way. The

actual fact, think the residents of the district. Every effort has been exerted to secure the building as the great increase in the number of children. The new fire engine house will be built on Main street near Vernon avenue. Work will be commenced in the immediate future.

Dr. E. H. McClish, pastor of the West Adams Methodist Church, has returned from Pacific Grove where he spent his vacation. Dr. McClish was gone three weeks and reports that his vacation helped him greatly.

Rev. A. F. Pennington is spending his vacation in the mountains. He is expected home by the middle of September and will probably fill the pulpit in the Presbyterian church on the second Sunday of the month.

## THE NORTHWEST.

The northwest section is growing rapidly and many new buildings are being erected. The extension of the street railway tracks has resulted in an influx of settlers and Temple street, Sunset boulevard, Boyle street, and the other streets of the section are all building up rapidly.

The West End Congregational Church has been forced to expand in order to care for the rapidly increasing congregation and the pastor, Rev. F. A. Field, has practically given up all hope of a vacation. He has been superintending the renovation and construction work on the church building. Among the other improvements is a complete set of new pews.

## DISCORDS.

MUSICAL GRAFT CHARGE MADE.

## DRIVE PREMIUM SCHOOLS OUT OF BUSINESS.

Los Angeles Association of Mandolin and Guitar Teachers Waging a Crusade Against Certain Methods and Alleged Bribing of Pupils—Preparing for Greatest Music Festival.

Under the leadership of C. S. De Lano, one of the best-known mandolin and guitar teachers in the country, the Los Angeles Association of Mandolin, Guitar and Banjo Teachers, of which he is president, is making a winning fight to drive out of Los Angeles not only what the association calls "fake mandolin schools," but the special premium schools of music, which were recently started by a number of the big music dealers in this city.

Naturally there is discord in these musical circles, and the cacophony of notes have been shattered by the inharmonious circular issued by the association denouncing the methods of these schools. In this circular the association states that the man who offered a 25-cent mandolin as a premium to join his school, and "who is at the head of a veritable network of these schools operating throughout the larger cities of America," has within the last year made over \$1,000,000 "out of these schools of grade." This is what the association teachers say about these schools:

"There is hardly a city over a few thousand population throughout the United States and Canada that has not been visited by one or more fake 'Mandolin Schools' which do not usually stay in a city at one time longer than from two to six months, for their methods of graft are exposed and, therefore, they must 'go on' to another town, sometimes opening under another name, but conducting the same game."

In Los Angeles there is especially a great number of young people interested in the playing of the guitar and mandolin, and a number of clubs. In fact, it is said that this city is famed for the number and excellence of its players on these musical instruments. In comparison to its population, more players of the guitar and mandolin than any other in this country, with the exception of New Orleans.

Just now there is heartburning and sadness among some players, and especially among those of the "independent" teachers, due to the fact that on October 24, next, there will be given a musical festival of stringed instruments ever held in this country. An orchestra of about 200 of the most famous teachers and players of mandolin, guitar, banjo and harp is being formed, about 150 already being enrolled and rehearsing—but the independent teachers are not to be allowed to participate, neither will their pupils. Only teachers belonging to the association and their pupils will take part.

When the association recently started in with its crusade to abolish the premium schools, the Bickel Music Company, Brown Music Company and Southern California Music Company all ran such schools in connection with the teachers of the "premium" schools. But when the association of local teachers was organized and began its crusade, these companies all finally gave up their schools.

The Osborn School of Music was at that time conducting big classes under the premium system, and was a member of the association, very cheap and poor instruments as ones costing \$1500 retail, to get pupils to join. This school has since been sold to a new owner, and the association is congratulating itself upon driving it out of the business.

The association is making its fight against the California College of Music and the Warren School of Music in the Blanchard building. It is also after certain teachers identified with these schools, and who use the same methods. "We have interest in musical circles devoted to stringed instruments is divided between the big orchestra which is to play in the Temple Auditorium and the smaller schools of the teachers and schools of the city."

## BULL'S HEAD BREAKFAST.

Will Be One of Many Features of Native Sons' Celebration of Admission Day.

Native Sons and Daughters of the Golden West are making extensive preparations for the coming celebration of California Admission Day, September 9. The local chapters will join with the San Bernardino Native Sons in a grand celebration at that place. This year the event will be a two-days' affair, and the claim is made that there will be "something doing every minute of the day."

A special train of ten coaches will leave Los Angeles on Sunday morning, September 8, over the Salt Lake road. As only 250 tickets will be issued, so those intending to make the trip should secure their transportation at once.

The members of the General Committee, are Dan Farmer, Bert I. Farmer, Geo. H. Burkhardt, Frank Cotter, Albert Cron, Theo. Herzog, E.

## Copper Stocks

Nothing in the field of industrial investment offers so reliable a source of big profits as good copper stocks, bought in the development of property, while they are cheap.

Most of the steadily producing copper mines of the country are producing from 100 to as high as 600 per cent. on the cost of their stock. Purchasers; but this amounts to only 8 or 10 per cent. on the present price of such stocks. Yes, the price goes up like that, as soon as a per mine begins to earn big dividends—up to thirty or even fifty per cent. But, of course, when you buy into a new copper mine, your money goes to help develop the property, you will have to wait a year before you get returns—then the Returns Are Big and Steady.

Next to Montana, Arizona is now the world's greatest producer of It is ahead of Michigan. When the New and Great London-Arizona mine is well started, it will put Arizona ahead of Montana. It is the greatest copper deposits ever opened, but is still in the development stage. Therefore, the price of the Treasury Stock is now low and should be made by Those Who Buy Now.

Our house has this stock for sale, and we can offer our clients the of a lifetime to make great money.

Call and talk this over with us or send for the literature.

# ORANGE TREES THREATENED.

Prof. Woodward Pessimistic as to Danger.

White Fly Pest Must Be Eradicated.

Thinks Not Enough Effort Has Been Made.

Prof. C. W. Woodward of the Agricultural Experiment Station of the University of California is pessimistic regarding the presence of the white fly in California. This pest was recently introduced from Florida at Davisville and Prof. Woodward does not think that sufficient efforts have been made to eradicate it. In a letter to the Times Prof. Woodward says: "It is our duty as officers of the Agricultural Experiment Station to investigate and report to the people of the state upon all important agricultural questions. We would have been very capable had we not taken cognizance of so important a matter as the introduction into this state of the most known pest affecting the orange industry."

"We have in no way interfered with the work of the State Horticultural Commission unless the obtaining and establishing of the facts presented in our circulars Nos. 20 and 32 can be considered interference; but they, on the contrary, endeavored to prevent us from obtaining these facts. These two circulars contain the letter authorized by the state of the situation we have been given."

"This is too serious a matter to allow the real issue to be obscured by every personal quarrel. Successful work will depend upon first finding out exactly what to do and then doing this work at the right time. There are only two periods during the year when eradication is really feasible—one of three or four months in winter, and another of two or three weeks in spring. Since the discovery of the white fly in Marysville the spring period has been allowed to pass and the winter period is approaching."

"No adequate effort was made this year to learn the possible food plants of the insect under the most adverse of our climatic conditions, but the stage of certain plants selected by the insect from the list of eastern plants was ordered destroyed. Had all this been done promptly and completely it would have been a great help to us in our eradication work. The insect would have been reduced, and we now have at least one important food plant out of the picture. The program laid down by the State Commissioner has not been carried out with any degree of completeness except for citrus trees, and most of this work was not completed until after the wingless period had passed by, during which alone the eradication might have been accomplished."

"The winter period is now almost upon us. We are scarcely, if any, nearer knowledge of what needs to be done to eradicate the insect and we must wait the last specimen of the work of the insect, and will have to be done again."

"It is folly to depend again upon such work or again to adopt a policy which has proven itself unequal to the situation. Perhaps eradication is an impossibility already. If we are satisfied to accept defeat let us stop further effort; but if we are to continue the fight let us discard that which has been the cause of failure."

"Finally, while there is no very great immediate danger of the insect being introduced to the south coast, there is a possibility the present dilatory tactics will result in its inevitable introduction into that section; for after it has become generally distributed in the north it would seem that nothing short of cutting off railway communications could permit of sufficiently rapid quarantine to give hope of keeping it out."

"The only hope, therefore, of the south remaining free from the pest is immediate and complete eradication of the insect while it is as present in isolated colonies."

"We care nothing about the question of who will give the task, but we do want to urge that really serious endeavor be made, and that this be done immediately or another—perhaps the last—opportunity will have been lost."

# A Machine That's Almost Human

## The Most Wonderful Electrical Invention of the Age

### It Revolutionizes the Sending and Receiving of Wire and Wireless Messages

# The Telautoprint is Now on Exhibition in Los Angeles

This is certainly the greatest electrical invention of the age. It is almost human, as it does work which hitherto could only be performed by human hands. This wonderful machine is called the TELAUTOPRINT, and when you read further on and understand what it does, you will agree that the world has been waiting for this invention for years.

This instrument can be attached to any Western Union, Postal Telegraph, cable, fire or burglar alarm wire or to the instrument used by Marconi, or any other wireless systems, and the message is received at the other end and recorded in typewriting at the same time, thus doing away with any person to act as receiver. The message is sent by the operator, who typewrites the message on a typewriter. The instant he strikes a letter on his typewriter that same letter is struck on the typewriter at the other end of the line.

Should he strike the letters R-O-O-S-E-V-E-L-T, the typewriter at the other end of the line, though it be hundreds of miles away, would record these letters exactly, and the word ROOSEVELT would be written on the paper in the machine.

Furthermore, it will be possible to set up the type in a newspaper office in San Francisco by the operators in Los Angeles. The TELAUTOPRINT can be connected with a linotype machine used by all newspapers to set type. The message would be flashed over the wire and the newspaper in San Francisco will instantly have the type all set up to print right in the newspaper. Just think of the time this will save, and think of the money it will save!

For example, the operator can sit in his office in Los Angeles on election night and send to Salt Lake the returns as fast as they were collected. The returns can be sent by wireless telegraphy and the typewriter in Salt Lake City would print the returns on a piece of paper the instant the operator struck each key in Los Angeles.

The same would be true in sending a message by cable from San Francisco to Honolulu. But one man would be required to send the message, and the man at the other end will simply have to take the typewritten sheets from the typewriter in Honolulu and have the message delivered to the party concerned.

Now you know what the TELAUTOPRINT is and what it can do. Wouldn't you like to know more about this wonderful machine? Wouldn't you like to see the machine itself? Just send the coupon, down in the lower right hand side of this advertisement, to our office, and in addition to giving you the literature requested, we will be glad to show you the TELAUTOPRINT in operation when you call.

You will agree that to discern a human need and then fill it means the making of a fortune. And you will further agree that the TELAUTOPRINT fills a great human need. And the men who are the stockholders in this company are going to be made wealthy just as soon as they erect their factory and supply the world with these wonderful instruments. This is YOUR OPPORTUNITY to become a stockholder in this company.

Let us give you a few facts for comparison.

Each \$100 invested in Bell Telephone stock has earned profits of \$200,000 for the investor. Every \$1000 put into Western Union stock has brought the investor \$150,000 in profits. Every \$1000 put into the Singer Sewing Machine stock has earned net returns of \$100,000. Tremendous though these profits may be, the profits of the TELAUTOPRINT will be more than those from Bell, Western Union and Singer companies combined.

Eventually every telegraph office in the world will be equipped with TELAUTOPRINT instruments; every railroad station, and many a business house.

Of course the TELAUTOPRINT will greatly reduce the amount of labor required in transmitting messages, and that is just why it is going to be universally used.

There will be no such things as strikes when the TELAUTOPRINT is used everywhere. True, men will be required to send the messages, but anybody who can operate a typewriter can send a message.

It takes but little reasoning to see what a great demand there is for the TELAUTOPRINT. Some day it will be used as universally as the telephone. And those people who have the wisdom and foresight to see into the future will be the ones who will profit through this invention.

Why don't you make a note today to go at once and see the machine and see what it does? Then you will know for yourself.

Do you suppose the men who originally invested in Bell Telephone stock hesitated a moment when they saw what the instrument would do? Do you suppose the men who financed the telegraph stopped to wait a while when they were given a chance to invest their money in an enterprise which they could see meant millions to them?

The TELAUTOPRINT is in just such a position today. And wise are those who invest now while the stock is the lowest it will ever be. Arrange to come to our office tomorrow and see this instrument, which revolutionizes the sending of wire and wireless messages.

All the patents covering the TELAUTOPRINT have been acquired by the

**U. S. Wireless Printing Telegraph Co.**

Who are now manufacturing this wonderful instrument in Los Angeles to supply the demand that has already been created in all parts of the world. The company has been organized for MANUFACTURING PURPOSES ONLY and will LEASE the instruments to licensed subsidiary companies about to be formed throughout Europe and America, who will finance themselves, paying a cash and stock bonus to the parent company. The TELAUTOPRINT will not be sold under any circumstances.

Half a hundred of the MOST CONSERVATIVE and SOLID business men in California advanced the funds for experimental and shop expenses, but now that the TELAUTOPRINT has been perfected, we have decided to offer for public subscription a small block of

**Stock at \$5 Per Share, Par Value \$10**

Every dollar from the same of which will be IMMEDIATELY used for the manufacture of the TELAUTOPRINT.

None of this is theory. Every feature of the TELAUTOPRINT proposition has been proved in practice, and today those think most of the TELAUTOPRINT and its future who are most familiar with every detail of its working.

**Stock Advances to Par in a Short Time**

It has a right to go to TEN TIMES PAR on the basis of the dividends it will pay. In fact, the field for the TELAUTOPRINT is so wide that there is ABSOLUTELY NO LIMIT to the market price of the stock.

**Remember**

That no one is asked to take this step blindly. We simply urge you to visit Room 311 Pacific Electric Building, Los Angeles, SEE THE TELAUTOPRINT IN PRACTICAL OPERATION, ask questions and SATISFY YOURSELF. WATCH THE INSTRUMENT AND LET IT TELL ITS OWN STORY.

**Free Demonstration Any and All Day**

YOU are invited by the management of the company to visit Room 311, Pacific Electric Building, Los Angeles, and PERSONALLY WITNESS A FREE DEMONSTRATION of the TELAUTOPRINT. Come and bring your friends. NO OBLIGATION INCURRED.

## Have You Confidence in the Judgment of these Men?

These are the men who have advanced the funds for experimental and shop expenses and these are the men who invite you to share in the millions and millions in profits to be made from the TELAUTOPRINT

|---|--|--|---|

We cannot impress too strongly upon intending investors that the widest possible distribution of this stock is what is sought, rather than a consolidation of ownership in a few hands, and to this end all allotments are limited. The qualifying result of this policy is that a large portion of this initial stock issue of \$5.00 a share is already subscribed. We have accomplished in a few months what we should have been content to achieve in two years' time, and the com-

pany will be able so much earlier to install its manufacturing equipment on a scale adequate to meet the market demands for the TELAUTOPRINT. This will be pleasing intelligence to those shareholders who have a speculative interest in seeing a rapid increase in the value of their shares, but the majority of our subscribers are, we believe, more interested in the ultimate fruits of a permanent investment than they are in immediate gains. They have bought their shares with the intention of holding them for the round-up of fortune.

**Will Soon Be Over-Subscribed**

Under our agreement only a limited number of shares are to be sold now at \$5.00 each, divided into convenient monthly payments if desired, and at the rate at which subscriptions are now being made THE REMAINDER OF THE SELLING ISSUE WILL BE EXHAUSTED IN A VERY SHORT TIME.

The price makes the opportunity for investment in the TELAUTOPRINT stock the most favorable that can be hoped for, as there is already ample justification for an increase in price.

## Stock Sold for Cash or for Part Payments

**Read What The Los Angeles Papers Say.**

At a recent demonstration given the representatives of the Los Angeles press, all of whom were present, considerable space was devoted to giving the public an outline of this new and wonderful invention.

"Soon an expert reporter banging a typewriter in New York may know that his words, just as he writes them, are received in Chicago, Los Angeles or even Honolulu, without the aid of Morse dots and dashes."—Express.

"Telegraph typewriter—practical invention that any one can operate, has been worked out to perfection in this city."—Times.

"To the layman, the very thought of the accomplishment induces brain fag."—Record.

"It writes without hands. It can be operated in connection with any telephone, telegraph, fire or burglar alarm system."—News.

"Everybody can now be his own telegrapher. Wonderful invention to relegate Morse system. 'Telautoprint' solves problems of thirty years. Destined to revolutionize the art of telegraphy."—L. A. Examiner.

## THE CITY IN BRIEF

### BREVITIES.

#### Bags Better Be Good.

Prof. W. W. Frost, an entomologist from Australia, is expected to visit Southern California the last of the week. He is making a tour of the world, investigating insect pests and fruit flies. He is in the employ of the Australian government.

#### Simple Solicitor.

Marvin McKee, who was arrested Saturday in St. Paul on a charge of embezzlement of between \$700 and \$800 from J. R. Newberry & Co. of this city, was a solicitor for the company's Hollywood store at the time he is alleged to have taken the money.

#### Guests in Paris.

A fire in the basement of the Hampden Arms at No. 516 West Fifth street, yesterday morning created a panic among the guests. Several of their belongings out of the building when the fire originated in the furnace room where papers were being burned. Little damage was done.

#### Big Gun on His Person.

Nathan Salvo was arrested yesterday on West Fourteenth street for carrying a large revolver and several rounds of cartridges. The police have been watching Salvo for several days and are attempting to connect him with a hold-up which occurred several days ago on the East Side.

#### Seek Man and Reward.

R. M. Cliff, for whose arrest \$100 reward has been offered, is believed to be in Los Angeles again and the police are searching for him. About three months ago he is said to have issued several small checks to which he forged names. He was employed as a clerk in several drug stores when he was in Los Angeles.

#### Money for the Grocers.

The Los Angeles Retail Grocers' Association will receive \$1045 as the net result of concessions, rebates on railroad tickets and miscellaneous profits on the recent annual grocers' picnic. This money will put the association in a position to contribute to the National Association and the expenses of the delegates to be sent to the national and state conventions.

#### La Fiesta Camp Leads.

Past Head Consul John H. Foley, of the Woodmen of the World, who has just returned from the sessions of the head camp, held at Seattle, reports that La Fiesta Camp, No. 63, has made a larger gain in membership during the past term than any other of the 516 camps comprising the Pacific jurisdiction. Numerous changes were made in the laws regulating the order at the head camp sessions just closed.

#### Dried Fruit Combine.

The dried fruit growers of Southern California will be asked to join the association of growers, but the growers recently organized in San Francisco for the purpose of making a stand against what is considered hostile legislation. The ruling of the federal government regarding the amount of sulphur that can be used on dried fruit is causing much agitation among the deciduous growers of the state.

#### Falls Under Wheels.

H. G. Hanson of No. 1043 South Grand avenue sustained a compound fracture of the left arm yesterday afternoon in a runaway accident. He was taken to the Good Samaritan Hospital. Hanson left his horse and buggy in front of a residence on Central avenue, near Twelfth street. The horse became frightened and started to run. Hanson reached for the bridle but stumbled and fell under the wheels. The horse was stopped by a patrolman on Tenth street.

#### Woodmen's Reception.

La Fiesta Camp, No. 63, Woodmen of the World, will give a reception at Woodman Temple, Mercantile Place, tonight, in honor of Past Head Consul John H. Foley, who has just returned from the meeting of the head camp at Seattle. Hon. R. D. Linn will deliver the address of welcome, and Judge E. E. Selph will preside. Head Advisor Veale will also be present. There will be a literary program, with music, after which refreshments will be served.

## NEWS AND BUSINESS.

Ladies—You never have to pay more than \$2 for the best shoes made, and the men never have to pay over \$2.25. I sell \$3.50 to \$4 sample shoes at these prices. I can fit all feet. I am located in the second floor of 414 1/2 S. Broadway. Visit my store and be convinced. Sample Shoe Man Stark.

J. W. Frey has moved his stock of mantels, grates, tiles and andirons to his warehouse, corner Los Angeles and Twelfth streets, where can be seen the latest assortment of black and brass fireplaces, trimmings to be found in the United States. Something new. Have you tried the jams which are made in the Southern California foothills? Pure fruit and cane sugar—nothing else. Ask your grocer for Phoenix Brand, Monrovia Preserves.

Sample shoes at wholesale prices. Sample Shoe Co., top floor Bryson Block, 2nd and Spring.

Damon, Piano tuner, 31 3/4 Spring. Pure D. Bonoff, furrier, 212 S. Broadway. Corsets to order, Sufferin, 212 Bldg.

#### SLAUGHTER OF FINNY TRIBE.

Wardens Want to Make Trouble for Fishermen Who Set About Thirty Miles of Net Nightly.

The tremendous and useless destruction of fish in Southern California waters may be called to the attention of President Roosevelt by a number of sportsmen who are dismayed at the wholesale catches made by Italian fishermen.

It is said that the Italians nightly set nearly thirty miles of nets along the shores from San Pedro, southward, and that thousands of fish are caught only to be thrown away. The local market is frequently glutted with fish and it is feared the time will come when the waters will be fished out.

Under the direction of County Fish and Game Warden W. B. Morgan, a number of illegal crawfish traps have been destroyed and men in whose possession crawfish have been found out of season have been arrested and fined.

#### PERSONAL.

Edgar Saltus, the novelist, is a guest at the Westminister.

Mr. and Mrs. James C. Johnson of Scotland are registered at the Westminister.

TWO DIE IN AUTO ACCIDENT.

SANDERSTOWN (R. I.) Aug. 25.—Walter Merrill, a stock broker of Boston, and Erick Landstrom of Mattapan, Mass., chauffeurs were killed today by the overturning of an automobile which crashed into a stone wall at a sharp curve in the road leading to Narragansett Pier. Five other occupants of the touring car, Mr. and Mrs. Frederick Milliken of Milton, Mass., Mr. Broughton, Miss Rita Milliken and Mrs. Merrill, wife of Walter Merrill, escaped with slight injuries.

#### Corcoran Opening.

Township of Corcoran, Kings county, will be put on sale in September. With papers for date. Million-dollar best sugar plant now being built there. Security Land and Loan Co., owners, 327 South Spring st.

#### Card of Thanks.

J. F. Johnson and family thank their friends and neighbors for the sympathy shown us in our late bereavement, and for the beautiful floral offerings.

## ISSUE RAISED.

### BYRAN REPLIES TO PRESIDENT.

#### NEBRASKAN OPPOSES NATIONAL GOVERNING LAWS.

Declares Control of Corporations by Such Process Means Centralization of Power and That State's Rights Would Be Doomed as Result of Corporate Greed.

(BY DIRECT WIRE TO THE TIMES.)

OMAHA (Nebr.) Aug. 25.—[Exclusive Dispatch.] William J. Bryan is out with a reply to President Roosevelt's Provincetown speech.

"Control of the corporations by the enactment of national governing laws means centralization of power," says Mr. Bryan in his Commencement address. "Centralization of power means the doom of State's rights in the congestion of events arising from corporate greed."

Mr. Bryan then takes up the Presidential speech wherein he favors national incorporation of interstate corporations and says:

"Here is the secret. It is out at last. The States are annoying the corporations and the corporations demand Federal protection from State legislation. The President thinks that action is not pressing as regards these corporations, because they are common carriers, exercise a quasi-public function. The States have been enacting 2-cent fare laws and laws reducing freight rates and the railroad managers demand that they be relieved from further fear of such legislation. The President's Hamiltonian ideas make him an easy victim and he yields to the entreaties of the railroads."

"If it was the public he sought to protect, he would recommend Federal remedies which would not conflict with State remedies; but it is the railroads and not the public that demand the removal of authority at Washington. The Democrats can be depended on to oppose with all their might this movement toward centralization."

"If any Democrat waxes, his constituents should look into his business relations and see whether he is under obligations to any railroad. A Hamiltonian Republican like the President may honestly think that the further the government is removed from the people the better it will be, but a Jeffersonian Democrat does not cherish any such delusion. Even the Hamiltonian Republican ought to hesitate to trust Congress with any more power while United States Senators are elected by Legislatures. It is fortunate that the people have had an object lesson so recently. The Federal law stopped passes and rates, but the railroads made more money than they did before. The States, on the other hand, gave the people a reduction in rates and these who are recalcitrant will be slow to surrender the advantage thus far gained."

"It is very doubtful whether the Republican congressmen from the West will dare to support the President's proposition, but if an attempt is made to put such a measure through Congress the Democrats will stand a good chance of retiring every Western Republican who votes for it. Let the Democrats present an unbroken front on this vital proposition."

RUDDY COLOR HAS ROOT.

Tanned Cheeks Shows That Secretary of State Is Recovering His Health.

(BY DIRECT WIRE TO THE TIMES.)

NEW YORK, Aug. 25.—[Exclusive Dispatch.] Elihu Root, Secretary of State, looked positively gay at the White Plains railway station yesterday. He had driven down with his family, including his wife and two children, to the latter's farm, Olympia, in the Westchester hills, to send a telegram.

Secretary Root walked with the alert, nervous gait that has been characterized of him in his most active days. His cheeks were tanned and a ruddy color of good blood glowed in them.

"Mr. Secretary," began the reporter, "will you give me a little talk about yourself—how you feel and how Muldoon's treatment is agreeing with you?"

Mr. Root laughed, grasped the iron on the front seat and leaped lightly up to the seat of Muldoon's trap. He smiled quickly, as if to say, "Isn't that a good answer to your question?" Then Muldoon drove on.

That wasn't enough. The vehicle was overtaken a little later and Mr. Root was asked to clear up the conflicting tales regarding the President's reported visit to Muldoon's farm.

"Oh, I don't care about clearing them up," said Mr. Root.

TEN KILLED IN COLLISION.

COUTRAS (France) Aug. 25.—Ten persons were killed and twenty-five injured in a head-on collision today between an express train bound from Bordeaux for Paris and a freight train.

The accident was caused by a misplaced switch. None of those killed or wounded was an American.

VITAL RECORD.

BIRTHS.

SMITH, Born to Mr. and Mrs. A. M. Smith, of Claremont, a son, August 25, 1907.

Deaths.

WARD, At his residence, No. 1011 Beacon st., August 24, 1907, Ben E. Ward.

FUNERAL, At 2 o'clock, friends are invited to be held in the residence this (Monday) afternoon at 2 o'clock.

DUDLEY, In this city, August 24, at his residence, William Henry Dudley, aged 74, beloved husband of Jane Elizabeth Dudley, father of Mrs. A. D. Dudley, Mrs. A. B. Burt and Mrs. J. A. Burt.

FUNERAL, At 2 o'clock, friends are invited to be held in the chapel of Pierce Bros. & Co., 818 S. Flower street, Tuesday, August 27, at 10 a.m.

GUENTHER, In this city, Aug. 23, William Guenther, aged 36, funeral from Pierce Bros. chapel, 818 S. Flower st., Aug. 24, at 2 p.m.

CLARK, In this city, Aug. 25, John S. Clark, aged 65, remains lying at Pierce Bros. chapel, 818 S. Flower st., Aug. 26, at 2 p.m.

CLARK, In this city, Aug. 25, 1907, Arthur Charles Clark, aged 24 years, funeral from Pierce Bros. chapel, Monday at 2 p.m.

BORDEN, Died at Chicago, Ill., August 25, 1907, Margaret Borden, wife of Susan Borden and daughter of Mrs. M. C. Burnett. Funeral notice later.

JORDAN, August 25, 1907, Margaret E. wife of Paul Jordan, funeral Monday, August 26, at 2 o'clock p.m., from the family residence, No. 241 East Fifty-second street.

Friends invited.

WARRINGTON, In this city, August 24, 1907, Wilbur Frank, only child of Mr. and Mrs. M. W. Warrington, died at his residence on the residence of his parents, No. 230 East Adams street, August 24, 1907, at 3 p.m. Friends invited. Interment, Evergreen Cemetery, (Saginaw, Mich., papers please copy.)

WHITNEY, At No. 430 Eighteenth street, Santa Monica, August 24, Grace Darling Whitney, aged 15 years, daughter of R. O. Whitney, Esq., Rock Valley, services Monday at Breese Bros. & Co. undertaking parlors at 1 a.m. Burial service at 1 p.m. at Harlan.

CLAIRKE, Arthur Charles Clarke, August 25, formerly of London, Eng.

Card of Thanks.

J. F. Johnson and family thank their friends and neighbors for the sympathy shown us in our late bereavement, and for the beautiful floral offerings.
